

Ekaterina Cheshun

UX/UI, Interior and Fashion *Designer*... and I do a bit of coding.

EXPERIENCE

Radion Engineering, Petah Tikva — UX/UI Designer

JUL 2013 - MAY 2019

Working closely with engineers and customers (leading Israeli Hotels, Hospitals, Supermarkets, Office Buildings, etc) to plan, design and develop UX and UI for Control Buildings Systems and Supermarket Refrigeration. Ability to accomplish entire projects from wireframe and mockup (a visual model) to fully functioning displays containing technical data and animation (self created gifs). Complex approach to a project. Making 3D models of buildings, floor plans, interior, conditioning systems and refrigeration equipment, rendering, SVG graphics, GIF animation and video with 3D models. Modifying AutoCad construction plans. Reconstruction of parking and warehouse facilities.
